

Web developer assignment

In this assignment for the internship application, you are expected to create and host a small website's homepage as detailed below.

The preferred tech stack is bootstrap, Javascript + JQuery, Plain CSS for this assignment.

UI Designs

Adobe XD link - <https://xd.adobe.com/view/62beadb2-fac2-491b-90d9-5bc90d77ae70-37ed/>

Can use the images other assets and designs from the above link.

Full page from the above design link has to be implemented for the assignment.

User Interactions

Animations and Functionalities expected:

1. 'Contact us' button

AWARD WINNING

DIGITAL MARKETING AGENCY

Morbi sed lacus nec risus finibus feugiat et fermentum nibh. Pellentesque vitae ante at elit fringilla ac at purus. Morbi sed lacus nec risus finibus feugiat et fermentum

CONTACT US

'contact us' button

In the above image, the '**contact us**' button should be clickable and should open up a pop-up form like the below image.

2. Pop-up form and submission

Talk to us	
Work email*	
First name*	Last name*
<input type="checkbox"/> I agree to Fyle's terms and conditions, and provide consent to send me communication.	
Contact Us	

Talk to us	
Work email Johndoe@acme.com	
First name John	Last name Doe
<input checked="" type="checkbox"/> I agree to Fyle's terms and conditions, and provide consent to send me communication.	
Contact Us	

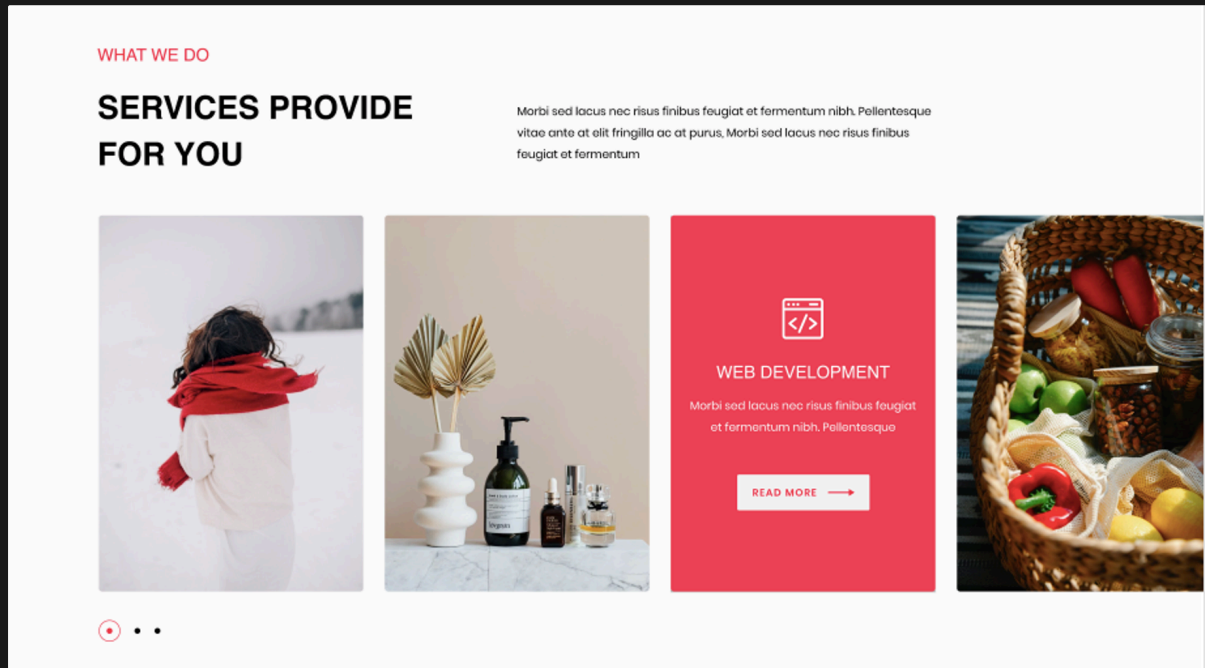

Designs for the pop-up form

Upon submission of the details in the form above, the form details should be submitted to getform.io.

Submissions of the form:

- Create a free account in getform.io

- Create an endpoint and POST your form data into this endpoint
 - This endpoint will simply act as an API endpoint to receive your form submissions
3. The **What we do** section here will be a slider with all the images sliding from left to right.

- the 3 dots on the bottom right is expected to change accordingly.
 - on the hover of any image, the picture should be replaced with the design as shown in the 3rd picture [here](#).
 - 'Read more' button here has to open 'fylehq.com' in a new tab
4. In the section 'OUR PROJECT', the image on the left should keep changing depending on the content on the right.

OUR PROJECT

WHY WE ARE BEST

Genderless Kei – Japan's Hot

Set to launch on the manufacturer's new A330neo aircraft in 2017, it's offering lots of

Better Strategy & Quality

Set to launch on the manufacturer's new A330neo aircraft in 2017, it's offering lots of

Genderless Kei – Japan's Hot

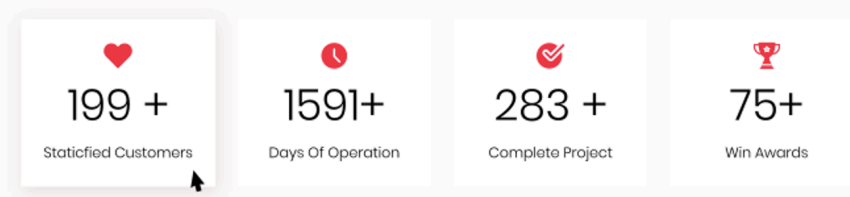

Set to launch on the manufacturer's new A330neo aircraft in 2017, it's offering lots of

- The image should change on click of the content in the right
- The other 2 images can be an image of your choice.

5. Highlight on hover

EXPERTS GROWTS

OUR COMPANY GROWTH

- on hovering the cards in the above, there has to be a highlighted interaction as shown above

Hosting of the page

Should be hosting your page in Github pages.

There are many articles and tutorials about 'how to host on Github pages'

Submission

Please fill out this form with the details of the public link of the repository containing the application and test cases, the deployed application and your resume.

Also,

Please record a video introducing yourself.

Upload the video to Google Drive and share the public access link. Please verify if the video is visible to anyone with the link.

We also want to hear your thoughts on your recently completed assignment. Keep the video under 2 minutes. Mention the following points in the video:

1. Introduce yourself. You can include:
 - a. Personal details like name, education, hobbies, etc.
 - b. Will you be available for a full-time internship for 6 months?
2. What was the most challenging part of the assignment?
3. If you were to change anything about the assignment, what would it be?
